

INTRODUCING
INTERNATIONALLY-RECOGNISED

CEMENT PANELS

Futuristic Building Systems

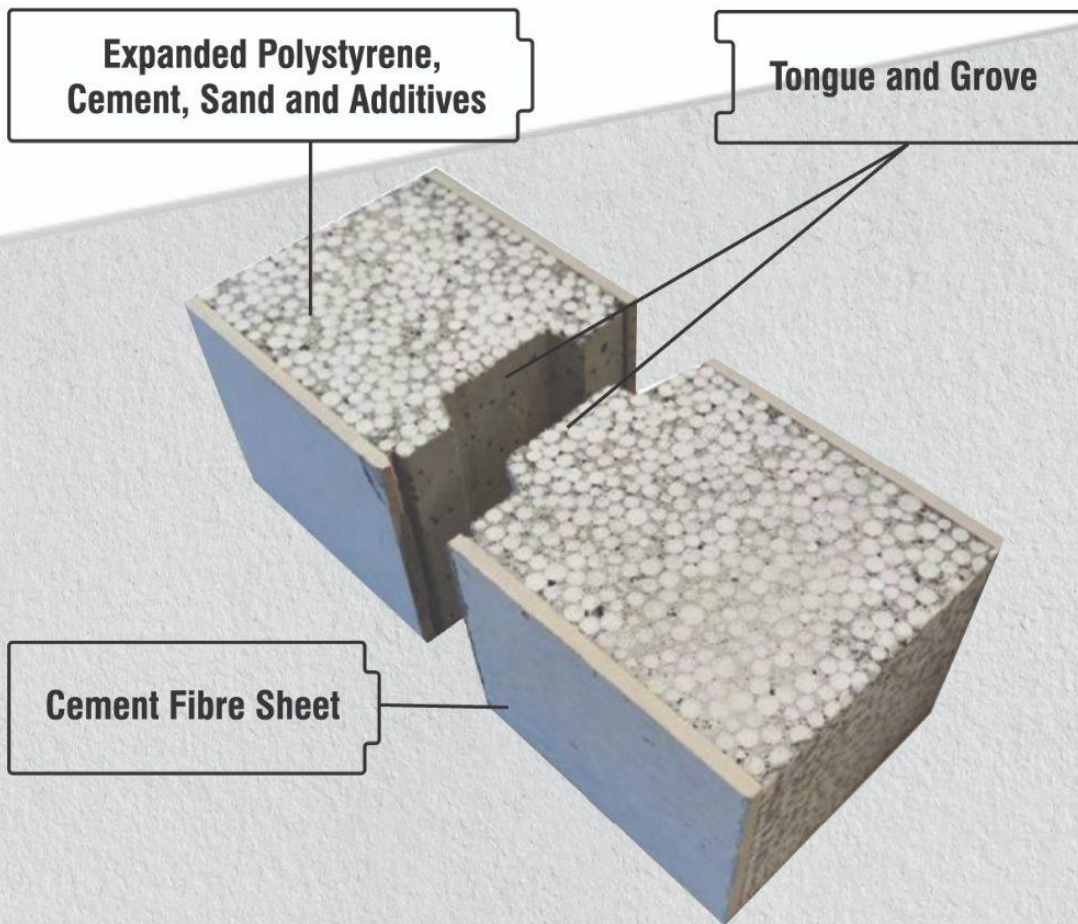

RBS is a brand of expanded polystyrene cement panels that is backed by a construction legacy spanning 6 decades. Our panels are made from state-of-the-art materials that give our cement walls superior strength, durability and insulation.

Using world-recognised construction materials and technology that meets relevant international standards, RBS panels are made from high quality expanded polystyrene and cement that offers perfect insulation, fire resistant properties and unmatched durability.

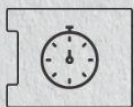

Applications :

Condominiums/ hospitals/ hotels/
office buildings/ shopping malls/
warehouses

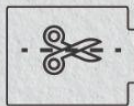

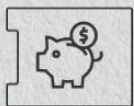

BENEFITS

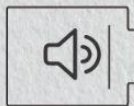

Build Faster

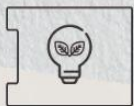

Cuts waste

Cost Effective

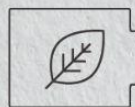

Effective Sound Insulation

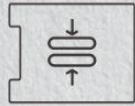

Higher Energy Efficiency

Effective Heat Insulation

Lightweight

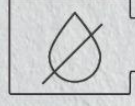

Higher Compressive Strength

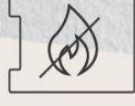

Indoor Outdoor Ready

No Plaster Required

Dry Wall Construction

Fire Resistant

Projects

ASPIRA Homes Piliyandala

Boundary Wall - Embilipitiya
